Publishing Solutions

- **Versatile print platforms** which allow us to economically print the quantities you need, while staying within your budget.
- **A wide range of formats** to meet your needs, whether your publication is digest, standard size, or tabloid. We have four color and black and white web presses, sheetfed presses with up to 10 units, a digital web press, and a variety of digital presses with capabilities for printing long, medium, and short run publications.
- **Precision color reproduction.** Our printing technology ensures accurate and vibrant color reproduction.
- **Digital edition creation**
- **Finishing and binding options** such as die-cutting, embossing, foil-stamping, folder gluing, pocket folding, saddle-stitching, case and perfect binding; as well as, aqueous, soft touch, varnish, UV, matte, and gloss coatings.
- **Kodak InSite**, our file upload portal, provides secure and controlled web access for file uploading and online proofing.
- **FSC® Certified Printer** offering plant-based, low VOC inks.
- **Gatefolds, cover tips**, inserts, blow-in cards capabilities to offer your advertisers premium placement.
- **Mail logistics team** analyzes your distribution list to identify the most cost-efficient method and delivery class.
- **Comprehensive mailing capabilities** including list processing, co-mailing, drop-shipping, and foreign mail processing.
- **Branded online storefronts**, warehouse, and fulfillment services make ordering and inventory management easy.
- **Our three Mid-Atlantic locations** are strategically located for the efficient printing, mailing, warehousing, and fulfillment of your periodicals and other publications.
- **Union printer**

Sustainable Initiatives

We strive for efficiency with every project, regularly review our environmental impact, and take a proactive approach to green, sustainable initiatives.

- **Forest Stewardship Council (FSC®)** Certification means that Intellicor is recognized as a printer that uses responsibly sourced paper. FSC® certified paper is natural, easily recycled, and helps prevent the pollution of landfills and oceans.
- **Plant-based, low VOC inks** are available. Inks made from soy, linseed, and other oil-producing plants are better for the environment. Plant-based inks require less carbon to manufacture, are sustainable, and make paper recycling easier.
- **Aggressive recycling program:** We're one of Lancaster County's largest suppliers of recycled paper generated by our operations.

Mailing

We're a USPS Detached Mailing Unit, and that means your mail enters the mail stream faster. Our *Mail Anywhere, Drop Everywhere Program™* allows you to reach more people, faster, for less.

- Data Processing with BCC Mail Manager Postal Software
- Variable Data Printing
- List Targeting and Hygiene
- High-Speed Inkjet Addressing
- Co-Mailing, Drop-Shipping, and Foreign Mail Processing
- Self-Mailer Expertise
- Mail Tracking Capabilities
- Ability to print and address coated and uncoated papers
- Handwork and Assembly
- Envelope Inserting

Storefront, Warehouse, & Fulfillment

- **Creation and management** of client-branded storefront websites or print-on-demand web portals
- **Real-time inventory** monitoring and management
- **Secure, climate-controlled** print and warehouse facilities
- **Shipping and delivery options** to meet your needs. Desktop-Direct Delivery is available in the Philadelphia metro area.

Award-Winning Solutions

The Print and Graphic Communications Association regularly recognizes the high quality of our work with Neographics awards. The Neographics Power of Print program is an annual competition featuring entries from printers throughout New York, New Jersey, Pennsylvania, and Delaware.
